Hiring Manager  
Bank of Hawaii

**DEAR HIRING MANAGER,**

I am confident that I would make a great contribution to your company as a Senior Strategy Analyst. I have the technical skills required for the position and I would make a great fit to your company's culture.

As a data professional of several years, I have experience supporting and creating a data based culture. I am a problem solver and leverage my technical skills to solve real business problems and provide actionable solutions. These skills would help me excel as a Strategy Analyst at Bank of Hawaii.

My family also has ties to Oahu. My wife grew up there and her parents and extended family all live on the island. Our plan is to move there and live there permanently. We love the Hawaii community and want to be a part of it.

Thank you so much for considering me for the position of Strategy Analyst. I look forward to hearing from you.

James Hill
